November 25 to
27

We had another wonderful week in second grade! Students began a new topic in Math with a focus on Geometric Shapes. They also continued their preparation for First Reconciliation which included a tour of the church confessionals!

Today in the Lancer folder you will find a special handout with information about First Reconciliation (First Penance). It will include a Child's Examination of Conscience, the Steps to Confession, and the Act of Contrition. This is a great opportunity for you to help your child practice these Reconciliation concepts at home. I recommend that you spend time each night reviewing the Act of Contrition and the steps to confession, as the children should have these memorized for First Reconciliation.. It is not required work; however, I highly recommend reviewing it with your child. I wish everyone a lovely weekend!☺

Thanksgiving Food Drive-
NEXT WEEK! Please send
in any extra canned food
items that you might have
to help those in need.

What are we learning next week?

Language Arts: Genre: Poetry. Spelling Pattern:

Math: How do you make new shapes and cut shapes apart?

Second Steps: Preferences: How do people's preferences vary and how do they change over time?

Science: What are the steps to the life cycle of the frog?

Religion: *Compare and Contrast The Prodigal Son and The Lost Sheep*
