## Weekly Update

The students had a wonderful week in 2<sup>nd</sup> grade! We began a new science unit on Force and Motion and continued working on measurement in math. The students also began practicing their readings for the 2<sup>nd</sup> grade Family Mass. Please make sure that your child is practicing his/her readings each night to ensure a successful Mass. Also, make sure to mark your calendars for the 2<sup>nd</sup> grade School Mass on March 2 at 9 and the 2<sup>nd</sup> Grade Family Mass on March 6 at 10:00.

Looking forward to next week, we will wrap up our study of measurement and focus on cause and effect in reading. I wish all of you a lovely weekend! ☺

### Upcoming Events

No School  
February 26

Early Dismissal  
March 2
